Autodesk Trademarks

The following are registered trademarks of Autodesk, Inc., in the USA and other countries: 3DEC (design/logo), 3December, 3December.com, 3D Studio, 3D Studio MAX, 3D Studio VIZ, 3ds Max, ActiveShapes, Actrix, ADI, AEC-X, Alias, Alias (swirl design/logo), Alias/Wavefront (design/logo), ATC, AUGI, AutoCAD, AutoCAD LT, Autodesk, Autodesk Envision, Autodesk Inventor, Autodesk Map, Autodesk MapGuide, Autodesk Streamline, Autodesk WalkThrough, Autodesk World, AutoLISP, AutoSketch, Backdraft, Bringing information down to earth, Buzzsaw, CAD Overlay, Can You Imagine, Character Studio, Cinepak, Cinepak (logo), Civil 3D, Cleaner, Combustion, Constructware, Create>what's>Next (design/logo), DesignStudio, Design|Studio (design/logo), Design Your World, Design Your World (design/logo), EditDV, Education by Design, FBX, Filmbox, Gmax, Heidi, HOOPS, HumanIK, i-drop, IntroDV, Kaydara, Kaydara (design/logo), Lustre, Maya, Mechanical Desktop, ObjectARX, Open Reality, PortfolioWall, Powered with Autodesk Technology (logo), ProjectPoint, RadioRay, Reactor, Revit, SketchBook, Visual, Visual Construction, Visual Drainage, Visual Hydro, Visual Landscape, Visual Roads, Visual Survey, Visual Toolbox, Visual Tugboat, Visual LISP, Voice Reality, Volo, WHIP!, and WHIP! (logo).

The following are trademarks of Autodesk, Inc., in the USA and other countries: AliasStudio, AutoCAD Learning Assistance, AutoCAD Simulator, AutoCAD SQL Extension, AutoCAD SQL Interface, Autodesk Intent, AutoSnap, AutoTrack, Built with ObjectARX (logo), Burn, CAICE, Cinestream, Cleaner Central, ClearScale, Colour Warper, Content Explorer, Dancing Baby (image), DesignCenter, Design Doctor, Designer's Toolkit, DesignKids, DesignProf, DesignServer, Design Web Format, DWF, DWG, DWG Linking, DWG (logo), DWG TrueConvert, DWG TrueView, DXF, Extending the Design Team, GDX Driver, Gmax (logo), Gmax ready (logo), Heads-up Design, Incinerator, LocationLogic, MotionBuilder, ObjectDBX, Plasma, PolarSnap, Productstream, RealDWG, Real-time Roto, Render Queue, ShowCase, StudioTools, Subcontractor Desktop, Topobase, Toxik, Visual Bridge, Visual Syllabus, and Wiretap.

Autodesk Canada Co. Trademarks

The following are registered trademarks of Autodesk Canada Co. in the USA and/or Canada and other countries: Discreet, Fire, Flame, Flint, Flint RT, Frost, Glass, Inferno, MountStone, Riot, River, Smoke, Sparks, Stone, Stream, Vapour, Wire.

The following are trademarks of Autodesk Canada Co., in the USA, Canada, and/or other countries: Backburner, Multi-Master Editing.

Third-Party Trademarks

mental ray is a registered trademark of mental images GbmH in the USA and/or other countries.

All other brand names, product names or trademarks belong to their respective holders.

GOVERNMENT USE

Use, duplication, or disclosure by the U.S. Government is subject to restrictions as set forth in FAR 12.212 (Commercial Computer Software-Restricted Rights) and DFAR 227.7202 (Rights in Technical Data and Computer Software), as applicable.

Table of Contents

1 Overview	17
About the Getting Started lessons	18
Before you begin	19
Installing Maya	19
Conventions used in the lessons	20
Using the lesson files	21
Using the Maya Help	22
Additional learning resources	27
Restoring default user settings	28
2 Maya Basics	31
Preparing for the lessons	31
Lesson 1 The Maya user interface	33
Starting Maya	33
The Maya interface	34
Saving your work	44
Exiting Maya	44
Beyond the lesson	45
Lesson 2 Creating, manipulating, and viewing objects	46
Creating a new scene	47
Primitive objects	47
The Toolbox: Layout shortcuts	50
The Toolbox: Transformation tools	51
The Channel Box	55

Table of Contents

	Duplicating objects	57
	Creating a project	58
	Save your work	59
	Beyond the lesson	59
Lesson 3	Viewing the Maya 3D scene	61
	Camera tools	62
	Workflow overview	66
	Viewing objects in shaded mode	71
	Grouping objects	72
	The Hypergraph	73
	Selection modes and masks	77
	Pivot points	78
	Save your work	80
	Beyond the lesson	80
Lesson 4	Components and attributes	82
	Template display	82
	Components	84
	The Attribute Editor	87
	Surface materials	89
	Save your work	92
	Beyond the lesson	93
3 Polygonal Modeling		95
	Preparing for the lesson	96
Lesson 1	Modeling a polygonal mesh	98
	Setting modeling preferences	99

Table of Contents

Using 2D reference images	100
Creating a polygon primitive	103
Modeling in shaded mode	106
Model symmetry	108
Selecting components by painting	109
Selecting edge loops	110
Editing components in the orthographic views	113
Editing components in the perspective view	121
Drawing a polygon	123
Extruding polygon components	125
Bridging between edges	131
Adding polygons to a mesh	135
Splitting polygon faces	137
Terminating edge loops	146
Deleting construction history	148
Mirror copying a mesh	150
Previewing a smoothed mesh	153
Creasing and hardening edges on a mesh	155
Beyond the lesson	161
4 NURBS Modeling	163
Preparing for the lessons	163
Lesson 1 Revolving a curve to create a surface	165
Creating a profile curve	165
Creating a revolve surface	167
Editing a revolve surface	167
Beyond the lesson	169

Table of Contents

Lesson 2	Sculpting a NURBS surface	171
	Preparing a surface for sculpting	171
	Basic sculpting techniques	174
	Additional sculpting techniques	177
	Sculpting a nose	178
	Sculpting eye sockets	179
	Sculpting eyebrows	180
	Sculpting a mouth	181
	Sculpting other facial features	184
	Beyond the lesson	185
Lesson 3	Lofting curves to create a surface	187
	Creating profile curves for a surface	187
	Duplicating curves	189
	Lofting a surface	190
	Modifying a primitive object	191
	Using the Outliner to parent objects	192
	Beyond the lesson	193
5	Subdivision Surfaces	195
	Preparing for the lesson	195
Lesson 1	Modeling a subdivision surface	196
	Creating a subdivision surface	196
	Splitting a surface in polygon proxy mode	199
	Extruding polygon faces	200
	Deleting polygon faces	205
	Subdivision surface levels	206
	Refining surface components	208

Table of Contents

	Creating a crease in a subdivision surface	210
	Beyond the lesson	212
6 Animation	213
	Preparing for the lessons	213
Lesson 1	Keyframes and the Graph Editor	214
	Setting the playback range	215
	Setting keyframes	216
	Using the Graph Editor	220
	Changing the timing of an attribute	224
	Fine tuning an animation	225
	Deleting extra keyframes and static channels	227
	Using Playblast to playback an animation	228
	Beyond the lesson	229
Lesson 2	Set Driven Key	231
	Lesson setup	232
	Using Set Driven Key to link attributes.	232
	Viewing the results in the Graph Editor	235
	Beyond the lesson	236
Lesson 3	Path animation.	237
	Open the scene for the lesson	238
	Animating an object along a motion path	238
	Changing the timing of an object along a motion path.	241
	Rotating an object along a motion path	248
	Blending keyframe and motion path animation.	250
	Using Playblast to playback an animation	256

Table of Contents

	Beyond the lesson	256
Lesson 4	Nonlinear animation with Trax	258
	Open the first scene for the lesson	259
	Creating clips with Trax	261
	Changing the position of clips with Trax	269
	Editing the animation of clips	271
	Reusing clips within Trax	273
	Soloing and muting tracks	277
	Scaling clips within Trax	278
	Open the second scene for the lesson	279
	Creating clips from motion capture data	281
	Extending the length of motion capture data	282
	Redirecting the motion within a clip	287
	Beyond the lesson	296
Lesson 5	Inverse kinematics	299
	Open the scene for the lesson	300
	Understanding hierarchies	301
	Viewing hierarchies using the Hypergraph	303
	Creating a skeleton hierarchy	304
	Parenting a model into a skeleton hierarchy	308
	Applying IK to a skeleton hierarchy	312
	Creating a control object for an IK system	315
	Constraining an IK system	318
	Limiting the range of motion of an IK system	322
	Simplifying the display of a hierarchy	330
	Applying parent constraints on an IK system	330

Table of Contents

	Planning an animation for an IK system	334
	Animating an IK system	337
	Beyond the lesson	342
7	Character Setup	345
	Preparing for the lessons	345
Lesson 1	Skeletons and kinematics	346
	Open the scene for the lesson	346
	Creating joints	347
	Adding joints to a skeleton	352
	Creating a skeleton hierarchy	354
	Forward and inverse kinematics	355
	Posing and animating using inverse kinematics	356
	Posing and animating using forward kinematics	359
	Beyond the lesson	359
Lesson 2	Smooth skinning.	361
	Open the scene for the lesson	361
	Smooth binding a skeleton	362
	Skin weighting and deformations	364
	Modifying skin weights	365
	Influence objects	367
	Beyond the lesson	370
Lesson 3	Cluster and blend shape deformers	372
	Open the scene for the lesson	372
	Creating a target object for a blend shape	373
	Creating a cluster deformer on a target object	374

Table of Contents

	Editing cluster weights	377
	Creating a blend shape	381
	Refining deformation effects	383
	Adding target objects to an existing blend shape	384
	Beyond the lesson	389
8	Polygon Texturing	391
	Preparing for the lesson	392
Lesson 1	UV texture mapping	393
	Creating a cracker box model	394
	Applying a texture map to a polygon mesh	395
	Viewing UVs in the UV Texture Editor	401
	Mapping UV texture coordinates	405
	Working with UVs in the UV Texture Editor	409
	Selecting UV components	409
	Sewing UVs	412
	Moving UV components	415
	Beyond the lesson	418
9	Rendering	421
	Preparing for the lessons	422
Lesson 1	Rendering a scene	423
	Open the scene for the lesson	424
	Creating shading materials for objects	425
	Refining shading materials for objects	429
	Maya renderers	434
	The Render View window	436

Table of Contents

	Rendering a single frame using IPR	436
	Rendering using the Maya software renderer	442
	Batch rendering a sequence of animation frames.	444
	Viewing a sequence of rendered frames	447
	Beyond the lesson	448
Lesson 2	Shading surfaces	450
	Open the scene for the lesson	451
	Assigning a shading material	452
	Modifying surface specularity	454
	Material types	455
	Assigning textures	456
	Using the Hypershade editor.	460
	Creating a texture within the Hypershade editor	463
	Modifying a bump texture	466
	Beyond the lesson	469
Lesson 3	Lights, shadows, and cameras	471
	Open the scene for the lesson	472
	Directional lights	473
	Spotlights	475
	Editing light attributes	478
	Shadows	481
	Creating additional cameras in a scene	483
	Animating camera moves	486
	Beyond the lesson	488

Table of Contents

Lesson 4	Global Illumination	490
	Open the scene for the lesson	491
	Render the scene using raytracing	492
	Using the mental ray for Maya renderer	492
	Setting render settings for raytracing	493
	Setting the image size for rendering	494
	Turning on shadows	495
	Rendering the image	496
	Render the scene using Global Illumination	497
	Setting a panel layout for rendering	499
	Rendering the scene with Global Illumination	500
	Increasing the brightness of Global Illumination	501
	Adjusting the quality of Global Illumination	502
	Beyond the Lesson	507
Lesson 5	Caustics	509
	Open the scene for the lesson	510
	Render the scene using raytracing	511
	Setting a panel layout for rendering	511
	Turning on shadows	512
	Using the mental ray for Maya renderer	513
	Setting the image size for rendering	514
	Setting render presets for raytracing	515
	Rendering the image	515
	Render the scene using caustics	517
	Rendering the scene with caustics	518
	Adjusting the refraction levels	520
	Increasing the brightness of caustics	521
	Adjusting the quality of caustics	522

Table of Contents

	Beyond the Lesson	524
10 Dynamics	527
	Preparing for the lessons	527
Lesson 1	Particles, emitters, and fields.	529
	Creating an emitter	530
	Creating volume axis fields.	532
	Adjusting the velocity of moving particles.	538
	Setting the particle render type.	539
	Adding dynamic attributes	540
	Adding per particle attributes	541
	Adding color to particles with a color ramp.	542
	Hardware rendering particles	545
	Beyond the lesson.	547
Lesson 2	Rigid bodies and constraints	549
	Lesson setup	549
	Creating hinge constraints	552
	Running a dynamics simulation.	553
	Changing an active rigid body to passive	554
	Beyond the lesson.	555
11 Painting	557
	Preparing for the lessons	558
Lesson 1	Painting in 2D using Paint Effects	559
	Painting strokes	559
	Modifying the default brush settings	562
	Modifying the canvas	564

Table of Contents

	Modifying the colors of a preset brush.	565
	Editing strokes with tubes attributes	567
	Saving brush settings for future use	568
	Blending brushes.	569
	Smearing, blurring, and erasing paint	570
	Beyond the lesson.	571
Lesson 2	Painting in 3D using Paint Effects	573
	Preparing for the lessons	574
	Brushes and strokes	575
	Rendering Paint Effects strokes	582
	Paint Effects on 3D objects	587
	Creating a surface to paint on.	587
	Painting on objects	591
	Using turbulence with brush stroke tubes	592
	Using additional preset brushes	593
	Mesh brushes	596
	Converting mesh strokes to polygons	599
	Modifying a converted polygonal mesh	600
	Beyond the lesson.	605
Lesson 3	Painting textures on surfaces.	607
	Open the scene for the lesson	607
	Preparing for painting.	608
	Painting with an Artisan brush.	609
	Painting symmetrical strokes	611
	Using Flood All to apply a single color	612
	Brush shapes	613

Table of Contents

	Painting with a Paint Effects brush	615
	Smearing and blurring	616
	Painting a bump map texture	618
	Beyond the lesson	620
12 Expressions		623
	Preparing for the lessons	624
Lesson 1	Creating a simple expression	625
	Creating expressions to control a single attribute	625
	Editing expressions	629
	Using expressions to control multiple attributes	630
	Linking multiple attributes on the same object	630
	Controlling attributes in two objects	631
	Beyond the lesson	631
Lesson 2	Conditional expressions	634
	Creating a conditional expression	634
	Other conditional statement options	637
	Fixing a problem in an expression	639
	Using else statements	640
	Simplifying expressions	641
	Editing expressions to refine an animation	642
	Beyond the lesson	645
Lesson 3	Controlling particle attributes	646
	Creating particle objects	646
	Using creation expressions to set a constant color	647
	Using runtime expressions	649

Table of Contents

Modifying runtime expressions	650
Beyond the lesson	652
13 MEL	653
Preparing for the lesson	653
Lesson 1 MEL basics	654
Using MEL commands	654
Creating a Shelf button for a MEL command	656
Downloading Maya MEL scripts	660
Creating a user interface slider using a MEL script	663
Beyond the lesson	666
Index	669
